### Experience

#### Front End UI Developer / Shift8

FEBRUARY 2021 - PRESENT, PYRMONT

- Currently developing a web-ordering platform using React JS, JavaScript and Bootstrap.
- Developed and designed the front end of a B2B web application for POS integration, using ASP.NET backend.
- Integrated sign up and account detail functionality into native iOS & Android apps, as well as loyalty websites, using HTML, CSS, jQuery, JavaScript, Bootstrap, and Ajax.
- Designed B2C & B2B apps for iOS, Android, and iPadOS, incorporating tools, reporting, loyalty, and ordering features.
- Created rasterized and vector graphics & logos, as well as animations, for software elements.
- Conducted various external research activities for both new and existing projects, and renovated the office.

#### UX/UI Developer / tech2

AUGUST 2019 - NOVEMBER 2020, ULTIMO

- Front-end development using HTML, CSS, JavaScript, jQuery, Bootstrap, and Ajax
- Creation of customer-facing portals and EDMs
- UX/UI design with Axure Wireframes and Procreate mockups

#### Technical Services Technician / tech2

APRIL 2016 - AUGUST 2019, ULTIMO

- Provided level 1 & 2 over-the-phone and remote support for consumer issues on Windows, Mac OSX, Android, and iOS platforms.
- Completed ad hoc tasks, such as creating artwork for the company, including animations, posters, flyers, award templates, and seating plan layouts.

#### Website Creator and Videographer / Haberfield Baptist Church

JANUARY 2015 - MARCH 2020, HABERFIELD

- Built and maintained website using Wordpress CMS.
- Implemented SEO strategies and integrated Google Analytics for website tracking.
- Filmed, edited, and uploaded weekly videos to the company's YouTube Channel.
- Posted videos on various social media platforms.
